

William T. Long, M.D.
2200 West Third Street, Suite 400
Los Angeles, CA 90057
(213) 484-7600

Dear Patient,

On your appointment day, please remember to bring the following:

- Medicare card / Insurance card.
- Valid photo ID.
- Referral letter.
- List of current medications and any known allergies.
- Completed registration forms provided by our office.
- Any outside x-rays or scans that you have on film or disc if they were taken within the last 3 months. These x-rays may help our doctors make a diagnosis. If the x-rays are not the views that the doctor needs to make a diagnosis, additional x-rays will be taken in the office. X-rays older than 3 months cannot be used to measure implants if you are going to need an operation. If outside x-rays were used to make a diagnosis, additional x-rays will be needed if you are scheduled for surgery.
- Copies of operation records, results, and medical records from prior doctor visits.
- If you have had surgery elsewhere, please bring a copy of your operation report.

To cancel an appointment, call (213) 484-7600.
